HOVENSA/St. Croix, USVI: EPA intends to decide on the Class 2 RCRA permit modification request by May 23, 2018, which is 120 days after public noticing of the draft permit modification. An extension from the 90-day requirement is allowable by regulation. A letter to HOVENSA ERT to this effect has been drafted with input from ORC. The proposed modifications are for the revised closure/post-closure requirements of Landfarms 2 and 3, as well as for adding a well to the perimeter sampling program.
